Education

Ramrao Adik Institute of Technology, D. Y. Patil Deemed to be University June 2022 – 2026
Bachelors of Technology in Computer Science (Major: Artificial Intelligence and Data science), CGPA: 9.5 *Navi Mumbai, India*

Experience

JiBe Development Services – Shipping ERP August 2025 – Present
Software Developer Intern → Junior Software Developer (Full-time) *Juinagar, IN (On-site)*

- Developing and maintaining scalable backend services using Node.js and MongoDB, ensuring efficient data handling and system performance.
- Implemented RabbitMQ for asynchronous communication between services, improving system reliability and message processing efficiency.
- Designed and optimized RESTful APIs for seamless integration between frontend and backend systems.
- Enhanced the Angular-based frontend with responsive, user-friendly interfaces, focusing on mobile-first design.
- Worked on performance optimization, debugging, and improving overall application scalability.

Projects

MindFirst, Techstack(Python, Next JS, Flask, prsima, NextAuth, Tailwindcss) April 2025

- Developed a mental health detection platform used by 100+ students, leveraging chatbot-based screening and psychometric data.
- Increased mental health test diagnostic precision to 99%, enabling targeted intervention for 100+ users.
- Analyzed 28,000 survey records; findings directly influenced survey redesign, reducing user effort by 50%.

Sim Sim, Techstack(Python, PySide6) May 2024

- Built a desktop-based AI assistant with GUI for daily automation tasks such as web search, reminders, and app launches.
- Achieved 70% faster task execution compared to manual input by integrating voice commands and real-time conversational GUI.

Committee Connect, Techstack(Android Studio, XML, JavaScript) December 2023

- Created a mobile app using creativity to streamline workflows for 8+ college committees, managing 50+ members with real-time task and meeting tracking.
- Reduced meeting scheduling conflicts by 40% and improved member accountability through digital attendance logs.

Technical Skills

- **Programming Languages:** R, Python, Java, C, C++, HTML/CSS, JavaScript, TypeScript, SQL (Postgres), MongoDB
- **Frameworks & Libraries:** Angular, React, Next.js, Node.js, Flask, TypeORM
- **Tools & Platforms:** RabbitMQ, Git, MS Office
- **Data Analysis & Visualization:** Pandas, NumPy, SQL, Excel, Matplotlib, Seaborn, Power BI
- **Machine Learning & AI:** TensorFlow, Scikit-learn, Deep Learning

Certifications

- **AWS:** AWS Academy Graduate: Machine Learning
- **CSI Rait** JAVA Programming Certificate
- **EDX:** UX/UI Design Fundamentals, Soft Skills: Collaborate Effectively
- **Wayspire:** Prompt Engineering: The skill of asking Ai right.
- **Rait ACM:** Ai meets Quantum Seminar

Extracurricular

Ongoing Research August 2024 – Present
Psychological Detection Using Chatbot + Psychometrics *MindFirst Project*

- Designed statistical analysis that proved test triage accuracy improvements were likely real, not random, with a probability value ($p \sim 0.000089$) showing findings can be trusted for actual health decisions.

Appwrite Hackathon October 2024
Team Lead *Navi Mumbai, India*

- Oversaw a team of four to build and launch a carbon footprint calculator web app that supported more than 500 user sessions in 2 days.
- Used Appwrite's authentication and databases to let users securely track their carbon emissions online.

Hobbies

Programming, Sudoku, Sports, Gaming, Mathematics, Teaching
